

Rohan Mehta

AI Developer

Bengaluru, India | +91 98765 11223 | rohan.mehta.dev@gmail.com | linkedin.com/in/rohanmehta-ai

PROFESSIONAL SUMMARY

AI Developer with 3 years building production ML pipelines and LLM-based applications. Skilled in Python, PyTorch, and deploying models at scale.

SKILLS

- Python, PyTorch, TensorFlow
- LLM fine-tuning (LoRA, QLoRA)
- Prompt engineering & RAG pipelines
- Vector databases (Pinecone, FAISS)
- Docker, Kubernetes, MLflow
- REST/gRPC API development
- Hugging Face Transformers
- SQL & data preprocessing

WORK EXPERIENCE

AI Developer — Nimbus Analytics Pvt Ltd

Jul 2023 - Present

- Built a retrieval-augmented generation (RAG) chatbot for internal documentation, reducing support ticket resolution time by 35%
- Fine-tuned a LLaMA-7B model using LoRA for domain-specific summarization, improving ROUGE score by 18%
- Deployed ML inference services on Kubernetes with autoscaling, handling 50K+ daily requests
- Built data preprocessing pipelines in Python processing 2M+ records daily

Junior ML Engineer — CodeSprint Technologies

Jun 2021 - Jun 2023

- Developed a sentiment analysis model achieving 91% accuracy on customer review data
- Automated model retraining pipeline using MLflow and Airflow
- Collaborated with product team to integrate ML predictions into the company's mobile app

PROJECTS

DocuMind - AI Document Q&A

Built an end-to-end RAG system using LangChain, FAISS and OpenAI API to answer questions over PDF document sets

Resume Screener Bot

Created an NLP pipeline to rank resumes against job descriptions using sentence embeddings

EDUCATION

B.Tech, Computer Science — VIT Vellore

2017 - 2021

CERTIFICATIONS

- DeepLearning.AI - Generative AI with LLMs
- AWS Certified Machine Learning - Specialty
