

Karan Verma

Python Developer

Gurugram, India | +91 99887 76655 | karan.verma.py@gmail.com | linkedin.com/in/karanverma-py

PROFESSIONAL SUMMARY

Backend-focused Python Developer with 3+ years of experience designing scalable APIs and automation scripts for data-heavy applications.

SKILLS

- Python (Django, Flask, FastAPI)
- REST API design
- PostgreSQL, Redis
- Celery, RabbitMQ for async tasks
- Docker, AWS (EC2, S3, Lambda)
- Unit testing with PyTest
- Pandas, NumPy for data processing
- Git, Linux shell scripting

WORK EXPERIENCE

Python Developer — Datasphere Systems

Feb 2022 - Present

- Built FastAPI microservices handling 200K+ requests/day for an internal billing system
- Designed asynchronous task pipelines using Celery and RabbitMQ, reducing job processing time by 50%
- Wrote automated test suites achieving 85% code coverage, reducing production bugs by 30%
- Containerized services with Docker and deployed to AWS ECS

Software Engineer (Python) — FlowTech Solutions

Jan 2020 - Jan 2022

- Developed internal automation scripts saving the operations team 15+ hours per week
- Built and maintained REST APIs for a Django-based inventory management system

PROJECTS

Automated Invoice Processor

Python script using OCR and regex parsing to extract structured data from PDF invoices and load into a database

Job Queue Dashboard

Built a Flask dashboard for monitoring Celery task queues with real-time status updates

EDUCATION

B.Tech, Information Technology — Delhi Technological University

2016 - 2020

CERTIFICATIONS

- Python Institute - PCEP Certification
- AWS Certified Developer - Associate
