

Sneha Reddy

Python Backend Developer

Hyderabad, India | +91 87654 32109 | sneha.reddy.dev@gmail.com | linkedin.com/in/snehareddy-dev

PROFESSIONAL SUMMARY

Python Developer experienced in building data pipelines and backend services for analytics-driven products.

SKILLS

- Python, Django REST Framework
- SQL (PostgreSQL, MySQL)
- Pandas, NumPy, Matplotlib
- API integration & webhooks
- Docker & basic Kubernetes
- Unit testing (unittest, PyTest)
- Git, Jira, Agile workflows

WORK EXPERIENCE

Backend Developer — Insight Analytics Pvt Ltd

Jun 2021 - Present

- Built and maintained Django REST APIs powering a B2B analytics dashboard used by 200+ companies
- Optimized SQL queries reducing average dashboard load time from 4s to 1.2s
- Integrated third-party payment and CRM APIs (Stripe, HubSpot) into the core platform

Software Engineer Trainee — ByteWorks Technologies

Jul 2020 - May 2021

- Wrote ETL scripts in Python to clean and load data from CSV/Excel sources into PostgreSQL
- Assisted in writing unit tests, improving test coverage from 40% to 70%

PROJECTS

Expense Tracker API

Built a Django REST API with JWT authentication for a personal finance tracking application

Data Pipeline Automation

Created scheduled Python scripts using cron and Airflow to automate daily report generation

EDUCATION

B.E, Computer Science — Osmania University

2017 - 2021

CERTIFICATIONS

- Coursera - Python for Everybody Specialization
- HackerRank - Python (Gold Badge)
