

Ishaan Kapoor

Software Engineer

Gurugram, India | +91 93456 78901 | ishaan.kapoor.sde@gmail.com | linkedin.com/in/ishaankapoor

PROFESSIONAL SUMMARY

Software Engineer with strong fundamentals in algorithms and backend systems, experienced across the full software development lifecycle.

SKILLS

- C++, Java, Go
- Data Structures & Algorithms
- RESTful API development
- Multithreading & concurrency
- SQL (PostgreSQL), Redis
- Git, Jenkins, CI/CD pipelines
- Agile/Scrum methodology
- Unit & integration testing

WORK EXPERIENCE

Software Engineer — Vertex Cloud Solutions

May 2021 - Present

- Developed core payment-reconciliation services processing 1M+ transactions monthly with zero data loss
- Improved system throughput by 30% through query optimization and connection pooling
- Built internal tooling for log analysis, cutting average debugging time by 25%
- Collaborated with cross-functional teams using Agile/Scrum to deliver features on 2-week sprints

Software Engineer Intern — NextGen Systems

Jan 2021 - Apr 2021

- Implemented unit tests for legacy modules, improving test coverage from 30% to 65%
- Fixed 25+ bugs reported by QA during pre-release testing cycles

PROJECTS

Inventory Management System

Built a Java-based inventory system with multi-threaded order processing and PostgreSQL backend

Competitive Programming Portfolio

Solved 400+ algorithmic problems on LeetCode and Codeforces, reaching Codeforces Specialist rank

EDUCATION

B.Tech, Computer Science — NIT Surathkal

2017 - 2021

CERTIFICATIONS

- Codeforces Specialist (Rating 1500+)
- Google - Foundations of Cloud Computing
